

README — E-YIELD Data Analysis Script for TREKIS-4

Dear reader,

This is a **BETA VERSION** data analysis software/script for TREKIS-4 (available at <https://github.com/N-Medvedev/TREKIS-4>).

Instructions for use:

1. Put all the results generated from TREKIS-4 into the directory named TREKIS_OUTPUTS.
2. Open a terminal and execute the script by running: `python E-YIELD.py`

Thank you for using this tool!
